

## Equestrian Program

*Come see and learn all about our majestic friends*

Join Paul Kucharczyk and his horses for a chance to learn and experience all the beauty that these animals exhibit. Guests will get a chance to see the horses up close and personal while learning all about the lifestyle of owning a horse as well as proper trail etiquette both for horse riders and those who come into contact with them while hiking or biking. Guests are encouraged to bring their own horses to make the experience more enjoyable. The program will be followed with a ride through the preserve. Program will be held at the Highway 67 staging area. Rain or muddy conditions cancel.
